

L003: Engineering Site Safety Briefing

Free Practice Sheet | @ondutyenglish | oabuilds.io/practice/L003

Lane A — Engineering English

Section 1 — Key Vocabulary

1. PPE

/ˌpiː piː 'iː/ noun (abbreviation)

Personal Protective Equipment — safety gear worn on a construction site.

"All workers must wear PPE including hard hats and high-visibility vests."

Tagalog: personal na kagamitan sa kaligtasan

2. hazard

/ˈhæzəd/ noun

A potential source of danger or harm in the workplace.

"Identify every hazard before beginning work in the trench."

Tagalog: panganib / mapanganib na bagay

3. risk assessment

/rɪsk ə'sɛsmənt/ noun phrase

A formal evaluation of the likelihood and severity of workplace hazards.

"Complete the risk assessment before operating any heavy machinery."

Tagalog: pagsusuri ng panganib

4. induction

/ɪn'dʌkʃən/ noun

A formal introduction to site rules and procedures for new workers.

"Every new contractor must attend a site induction before starting work."

Tagalog: pagsasanay sa bagong lugar ng trabaho

On Duty English

5. exclusion zone

/ɪk'skluːʒən zoʊn/ noun phrase

An area where access is restricted for safety reasons.

"Do not enter the exclusion zone around the crane's swing radius."

Tagalog: lugar na ipinagbabawal pumasok

6. permit to work

/'pɜːrmit tə wɜːrk/ noun phrase

A formal document authorising specific high-risk work activities.

"You need a permit to work before starting any hot works on site."

Tagalog: pahintulot sa trabaho

7. near miss

/niər mɪs/ noun

An incident that could have caused injury but did not.

"Report every near miss — it helps prevent future accidents."

Tagalog: halos aksidente

8. toolbox talk

/'tuːlbɒks tɔːk/ noun

A short, informal safety briefing held on site before work begins.

"We hold a toolbox talk every morning to review the day's hazards."

Tagalog: maikling talakayan sa kaligtasan

Section 2 — Phrases & Patterns

Before we begin today's work...

Open a toolbox talk.

"Before we begin today's work, I want to highlight three key hazards."

If you identify a hazard...

Instruct reporting procedure.

"If you identify a hazard, stop work immediately and report it to the site supervisor."

The exclusion zone is marked by...

Describe physical boundaries.

"The exclusion zone is marked by orange barriers around the excavation."

On Duty English

You must not proceed without...

State a permit requirement.

"You must not proceed without a signed permit to work."

Section 3 — Scenario Practice

Read the dialogue aloud. Circle any words you found difficult to pronounce.

Site Engineer: Good morning everyone. Before we begin today's work, let's run through the toolbox talk.

Worker: Morning. What are the main hazards today?

Site Engineer: We have three: the open excavation on the east side, overhead power lines near Grid C, and the concrete pour scheduled for this afternoon.

Site Engineer: The exclusion zone around the excavation is marked by orange barriers. Do not enter without a permit to work.

Worker: What do we do if we spot a near miss?

Site Engineer: Stop work immediately, secure the area, and report to me or the safety officer. Every near miss gets logged — no exceptions.

Section 4 — Self-Evaluation

After completing the exercises, tick each item you feel confident about:

I can explain what PPE, risk assessment, and permit to work mean.

I can describe a hazard and an exclusion zone in English.

I can lead a basic toolbox talk using the phrases from this lesson.

I can report a near miss professionally in English.

Section 5 — My Notes
